Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, WK3N, W8CX0, K8KR, K8MFO and KD8V for the following DX information.

4J1FS, MALYJ VYSOTSKIJ ISLAND. Well, 4F1FS showed up on the air Thursday, May 23th. The Dxpedition will be on all bands and modes until May 29. QSL via OH2BU.

D2, ANGOLA. Nicholai, RT5UT, one of the operators going to Angola said the group has postponed their DXpedition until around May 27. The operators will leave Moscow on May 26 and will commence operating shortly after their arrival in Angola. The operation will last thru June 9th, because the operators must be back in Moscow on June 11. Operating frequencies for CW will be 25 KHz from the band edge on 10, 15 and 20 meters. For SSB, check 14195, 21195 and 28495 KHz. The frequencies for 80 and 40 meters will be announced and some WARC activity is expected.

EL, LIBERIA. EL2/KC4WCV still continues to be active mostly on 10 meters, but he has been heard on 15 meters. Check between 28328 to 28365 Khz around 1330 to 1800Z. Also check the DX Net on 21335 Khz around 1600Z. QSL via N4TBB.

ET, ETHIOPIA. Jack continues to make all the CW ops happy. Word has it he will be leaving around June 8, but this date could be cut short do to the political unrest in the country. QSL via F6HIZ for contacts on and after May 8.

FR/T, TROMELIN. Yoland, FR5AI/T, will be leaving Tromelin about May 25th. He plans to be active from Juan de Nova at the end of September and hopes to be active from Glorioso sometime this year.

TI9, COCOS ISLAND. Jose, TI2JJP, was active this week from Cocos Island signing TI9JJP. But by the time you read this he will be QRT. QSL only to TI2AOC 1990-91 CallBook address.

VS, HONG KONG. Graham, VS6V0, who was stateside on business, has left Saturday morning to return to his home. The guys in Cleveland enjoyed Graham's visit, but before he left, Graham announced that George, K8KR, will be his QSL manager.

XZ, MYANMAR. Rumors continue to persist that Romeo, UB5JRR, will be going to XZ in June. The DXpedition will consist of four operators, two stations, 160-6 meters plus WARC bands, and they will be on the air for two weeks. KYKC!!

KIYOKO YAMAKAMI. Last week we reported Kiyoko does not hold a valid JA license. Bill, W8CX0, has brought it to our attention that Kiyoko does, however, hold a NH6RT callsign. Her Technician Class license has an address listed as: LBJ Medical Center Laboratory, Pago Pago, American Samoa 96799.

QSL CARDS IN THE MAIL. The cards for the last Malpelo DXpedition will be mailed at the end of May or the first part of June. Cards for Ron's, ZL1AM0, operation to FW0BX are starting to be mailed out now. The cards from the 1A0KM operation that took place at the end of April are now being received in the mail. Also, QSL cards from Baldur's, SY/DJ6SI, operation to Mount Athos are now being received. (This next one amazes me.) There is a message being passed around on the Packet Network by K9MM that states: "According to Don Search at the ARRL HQ, some YA0RR QSLs started showing up at the DXCC desk in mid-March. They were sent to the recipients by FAX!" GEE! I bet alot of guys would like to have that FAX phone number.

Sorry for the short bulletin this week. Due to the holiday weekend and CQ WW WPX Contest, information was hard to come by.

Good Luck on DX de KB8NW

Excerpts and distribution of The OPDX Bulletin are granted as long as OPDX/BARF80 receive credit. To contribute DX info, call BARF-80 BBS online at 216-237-8208 2400/1200/300 and leave a message with the Sysop or send InterNet Mail to: aq474@cleveland.freenet.edu or send BitNet Mail to: aq474@cleveland.freenet@cunyvms or send a message via packet to KB8NW @ WA8BXN.OH.USA.NA
